*No data*

#### Marine

Concentration ( $\mu\text{g/L}$ )

Narrative

##### **Floating or Submerged Litter**

No solid debris, including floating or drifting materials (such as fishing gear, plastics, metals, rubber, glass, cloth, paper, wood, or other materials) should be introduced (directly or indirectly through human activities) into marine and estuarine waters.

##### **Settleable Matter (Residues)**

No residues or other solids should be introduced (directly or indirectly through human activities) that may, alone or in combination with other substances, cause any solid, sludge, or emulsion to be deposited on the bottom, intertidal zone, or shorelines of marine and estuarine areas. The natural rate of deposition and characteristics of marine and estuarine settleable sediments and other settleable solids should not be altered.

##### **Note:**

Interim guideline.

Date

1996

### Water Quality for the Protection of Agriculture
